CONTENTS

No. 1, February 1991

PAGE

William G. Eberhard. Copulatory courtship and cryptic female choice in insects 1

Edward M. Goolish. Aerobic and anaerobic scaling in fish 33

Peter K. McGregor. The singer and the song: on the receiving end of bird song 57

Christine A. Nalepa & Susan C. Jones. Evolution of monogamy in termites 83

No. 2, May 1991

William R. Atchley & Brian K. Hall. A model for development and evolution of complex morphological structures 101

David Guest & Bruce Grant. The complex action of phosphonates as antifungal agents 159

N. W. Simmonds. Genetics of horizontal resistance to diseases of crops . . 189

No. 3, August 1991

John E. A. Bertram & Sharon M. Swartz. The 'law of bone transformation': a case of crying Wolff? 245

David Lloyd & Maurice Stupfel. The occurrence and functions of ultradian rhythms 275

No. 4, November 1991

Johan J. Bolhuis. Mechanisms of avian imprinting: a review. 303

John A. Byers. Pheromones and chemical ecology of locusts 347

C. J. Barnard, J. L. Hurst & Peter Aldhous. Of mice and kin: the functional significance of kin bias in social behaviour 379

KEDAR N. PRASAD. Differentiation of neuroblastoma cells: a useful model for neurobiology and cancer 431
ANTHONY J. STUART. Mammalian extinctions in the Late Pleistocene of Northern Eurasia and North America 453

INDEX OF AUTHORS

ATCHLEY, WILLIAM R. & HALL, BRIAN K. A model for development and evolution of complex morphological structures 101
BARNARD, C. J., HURST, J. L. & ALDHOUS, PETER. Of mice and kin: the functional significance of kin bias in social behaviour 379
BERTRAM, JOHN E. A. & SWARTZ, SHARON M. The 'law of bone transformation': a case of crying Wolff? 245
BOLHUIS, JOHAN J. Mechanisms of avian imprinting: a review 303
BYERS, JOHN A. Pheromones and chemical ecology of locusts 347
EBERHARD, WILLIAM G. Copulatory courtship and cryptic female choice in insects 1
GOOLISH, EDWARD M. Aerobic and anaerobic scaling in fish 33
GUEST, DAVID & GRANT, BRUCE. The complex action of phosphonates as antifungal agents 159
LLOYD, DAVID & STUPFEL, MAURICE. The occurrence and functions of ultradian rhythms 275
MCGREGOR, PETER K.The singer and the song: on the receiving end of bird song 57
NALEPA, CHRISTINE A. & JONES, SUSAN C. Evolution of monogamy in termites 83
PRASAD, KEDAR N. Differentiation of neuroblastoma cells: a useful model for neurobiology and cancer 431
SIMMONDS, N. W. Genetics of horizontal resistance to diseases of crops . . 189
STUART, ANTHONY J. Mammalian extinctions in the Late Pleistocene of Northern Eurasia and North America 453
